Subject: RE: FWICC Subcommittee - Meeting Minutes

I strongly consider Hydro excavation as the best and safest manner to be used to identify water service connections I am aware of at this time. If there is a better way to identify water service lines I would be happy to here where and how it is done.

Subject: Re: FWICC Subcommittee - Meeting Minutes

Hello all:

I wanted to take the time to ask for clarity on a couple of things from your minutes on this call:

- Dr. Pamela Pugh was on the call and she attempted to identify herself but the phone was muted when she did so.
- In your third sentence, second bullet under item number four: Instead of starting the sentence with the word "Most" please list the names and rolls/agencies of those who "felt hydro excavation could be

accomplished in a safe manner and that most splices were short and occurred within the first 3 feet of the curb stop". The City of Flint did not agree with these statements.

On Fri, Aug 3, 2018 at 10:54 AM, Ruch, Suzann (DEQ) <RuchS@michigan.gov> wrote:

Attached are minutes from the July 31, 2018 FWICC Water Quality and Infrastructure Subcommittee for your review and comment.

Please respond by COB Wednesday, August 8, 2018, should you have any comments/changes/corrections to the minutes.

Thank you.
